## PROJECTS

- **Shoptoday – E-commerce Website (MERN, Redux)**

Built a full-stack e-commerce platform with **MERN** and **Redux**, featuring **secure user authentication**, **role-based access (Super Admin, Admin, Buyer)**, and **order management**. Integrated **product browsing**, **shopping cart**, and a **rich text editor** for product descriptions. Designed a **data table-based** product list with search and **pagination**, and developed a **responsive UI** using **React.js**, **JavaScript**, **CSS**, **Bootstrap**, and **Material UI** to deliver a seamless shopping experience.

- **Building a game to test your memorizing ability ( simon says )**

Designed and developed an interactive Simon Says memory game using [ HTML, CSS, and JavaScript ] featuring dynamic color sequences, real-time user input validation, difficulty progression, sound effects, and score tracking to recreate and enhance the classic gameplay experience.

- **Building a weather Application**

Developed a dynamic weather application using [ React, Javascript, Bootstrap Framework] with **real-time conditions** and a **5-day forecast** by integrating the **OpenWeatherMap API**. Implemented **asynchronous data fetching**, **error handling**, and a **responsive UI** to deliver accurate weather insights and a seamless user experience across devices.

- **Expense Tracker – Full Stack Web Application | Data Visualization & Auth**

Built a full-stack **expense tracking web app** using React.js, Node.js, Express.js, and MongoDB. Implemented a **user-friendly dashboard** to **view income**, **expenses**, **recent transactions**, and **visual financial overviews** using **Recharts.js**. Added features like **income/expense entry** with **emoji-picker**, **Tailwind CSS** for styling, and **user authentication** for secure login and registration.
